## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Horvath (US 4,707,027).

With respect to claim 1, Horvath et al discloses an inflatable mattress comprising a first chamber (8), a first valve assembly (16), an air pump (14) for inflating the first chamber through the first valve, a first switch (22) for activating the air pump and opening the first valve, a second chamber (10), a second valve (24) through which the air pump inflates the second chamber, a second switch (24) to activate the air pump and open the second valve; wherein the air pump has a first pair of electrodes (contacts; see Figure 3) and a second pair of electrodes (contacts; see Figure 3), the air pump operating in a first direction when the first pair of electrodes contact each other, the air pump operating in a second, reverse direction opposite the first direction when the second pair of electrodes contact each other (see col. 3 ll. 1-40), and the first switch controls the air pump to operate, and the second switch also controls the air pump to operate.

***Allowable Subject Matter***

Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
